Name of person bringing child to Event:

Telephone #:

Give Kids A Smile is an event hosted by volunteer dentists in conjunction with the American Dental Association. This event is an annual centerpiece to National Children's Dental Health Month. It is designed to provide education, screening, treatment and preventative care to low income children who do not have access to care.

During this event, your child will be screened by a dentist, may have his/her teeth cleaned, may have fluoride applied to the teeth, and/or may have sealants placed. If there are any dental emergencies, we will try to treat the emergency on the day of the event or may refer you to a clinic that can treat the emergency.

Please complete the following health history form for your child prior to the event and bring completed form to the event.

Medical History:

- Artificial Heart Valve YES / NO
- Artificial Joints YES / NO
- Congenital Heart Problems YES / NO
- Cough, persistent or bloody YES / NO
- Diabetes YES / NO
- Epilepsy YES / NO
- Heart Murmur YES / NO
- Heart Problems Yes / NO
- Mitral Valve Prolapse YES / NO
- Allergies:

-
- Medications:
-
- Any medical problem(s) not listed above?
-
